

K-LOVE serves as a strong, positive influence for my family and my community. It stands as one of the only stations that's safe for the family to listen to without hearing people talk with coarse language or about sexual things. Also, the music is encouraging and serves as a positive example for our youth to inspire and motivate them toward good. This stands in stark contrast to other stations that promote sex, violence, hate, etc.

Please protect K-LOVE and stations like it by keeping their broadcasts a priority for that FM bandwidth.

Thank you for allowing me to provide inputs to this important issue.

Captain Chris Hemrick, U.S. Air Force
